TO: County Superintendents and District Superintendents

FROM: Peter L. LoPresti, Executive Secretary

SUBJECT: Correspondence

In a further attempt to make certain that all interested public school officials and personnel receive written communication from the Commission for Teacher Preparation and Licensing regarding credentialing requirements, I would appreciate receiving the names and addresses for all Certificated Personnel Directors, Employee Teacher Education and Credentials Directors, Personnel Services Directors, or similar individuals through whom information can be routed to teachers.

By compiling a mailing list for Personnel Coordinators and Directors, we hope to get information to everyone concerned with details about Title 5 Regulations and other information emanating from the meetings of the Commission.

Your cooperation in forwarding the needed information will certainly be appreciated. As soon as we have received the proper names and addresses, information will start being circulated to those individuals.
